

Product Update June 2007

Ficam[®] D - A Predictable Outcome

Dear Customer,

Bayer has changed the size and pack of Ficam[®] D to a new 3 kilo plastic oblong bucket.

The reason for the change is that the new pack:

- ✓ *Complies with UN packaging regulations*
- ✓ *Is more stable and does not roll*
- ✓ *Is easier to store and fits compactly into your vehicle*

All of this makes the new pack better for **YOU**, the pest controller. The price per kilo is exactly the same! There are no hidden charges for this much improved pack. The new pack of Ficam[®] D costs £22.14 per 1 x 3 kilo bucket.
