

# Ficam® W

A predictable outcome

- Excellent against wasps, ants, fleas and bed bugs
- Does not repel or excite the insects
- Once added to water, no classification
- Odourless, non-staining, non-tainting and non-corrosive

### Excellent broad control

Ficam® W is a recognised quality formulation with extensive label recommendations and is a non-repellent. As it is a non-pyrethroid, Ficam® W is an ideal tool for resistance management.

Ficam® W has long lasting activity as bendiocarb is photostable thus enhancing availability to insects.

Ficam® W is supplied in measured doses (5lt water soluble sachet). The pack being a water soluble sachet means less disposal of packaging and reduces operator exposure. Also available in 500g (1lt to 5lt scoops).

Clean/minimal visual deposit after application.

Ficam® W is a biodegradable product with no risk of environmental contamination, it is water-based, no oil or solvent to damage surfaces.

### Areas of Use

**Domestic premises:**

In and around buildings including houses, blocks of flats etc.

**Public Buildings:**

Continuously occupied areas (as band/spot or crack and crevice treatment only), hospitals, hotels, public baths, municipal buildings, churches, halls, community centres, cinemas etc.

**Food Handling:**

Processing, food manufacture, kitchens, slaughter houses etc.

**Storage:**

Food retailers, warehouses etc.

**Food Preparation:**

Restaurants, commercial kitchens etc.

**Aircraft:**

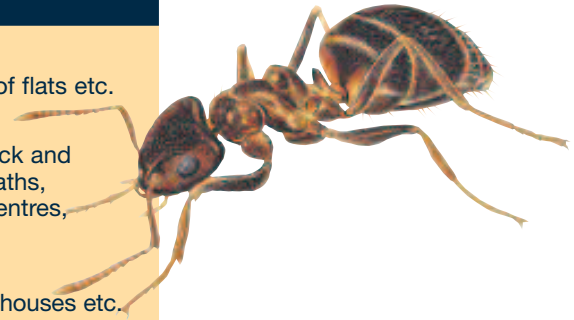

Aircraft galleys, cabins etc.

**On board ship:**

Accommodation and food preparation areas.

**Outdoors:**

Refuse tips, sewage works (excluding filter beds), amenity areas etc.

### Insects Controlled

Ficam® W is suitable for the control of a wide range of Public Hygiene insect pests to include:

Ants, wasps, fleas, flies, mosquitoes, bed bugs, cockroaches, moths, silverfish, earwigs, booklice & beetles.

It will also control spiders, woodlice, centipedes, millipedes and ticks.

### Health and Safety

Health and safety equipment.

### Application Rate

Crawling insect pests and adult mosquitoes in all situations; also cockroaches in most situations:

1 sachet = 15 g in 5 litres water (0.3%)

For control of cockroaches in special situations i.e. where heavy infestations are present, where an extended period of control is required, where conditions are particularly unhygienic:

2 sachets = 30 g in 5 litres water (0.6%)

Houseflies and blowflies

1 sachet = 15 g + 50 g sugar in 5 litres water (0.3% + 1.0% sugar). 5 litres of spray covers approximately 125m<sup>2</sup>

### USE BIOCIDES SAFELY

#### ALWAYS READ THE LABEL AND PRODUCT INFORMATION BEFORE USE

Ficam® W contains bendiocarb 80 % w/w. Ficam® is a registered trademark of Bayer. HSE 5390. PCS 90594.
